

Searles®

Azalea, Camellia & Gardenia Food

SEARLES® AZALEA, CAMELLIA & GARDENIA PLANT FOOD is a blend of organic and inorganic fertilisers plus essential trace elements & minerals, which combine to promote healthy root and leaf growth and better flower formation.

SEARLES® AZALEA, CAMELLIA & GARDENIA PLANT FOOD is formulated for acid loving plants such as azaleas, camellias, rhododendrons, ericas (Heath), daphnes and gardenias. It can be added into the soil prior to planting or sprinkled onto soil surface for established plants.

NOTE: If the soil is low in organic matter, use SEARLES® SIM1 Plus Organic Plant Food to boost humus and organic matter content in the soil.

DIRECTIONS FOR USE

GARDENS

	DIRECTIONS	WHEN TO APPLY
YOUNG PLANTS	Apply 30g per plant (approx. 3 tablespoons)	Apply in early spring (immediately after flowering), in summer and again in autumn. Water well after application.
MATURE PLANTS	Apply 50g per plant (1/4 cup)	

Sprinkle onto moist garden soil. Keep fertiliser away from trunk of plant. Lightly rake into surface of the soil, being careful not to damage any roots. Water well before and after application.

POT PLANTS

Sprinkle onto moist potting mix surface (as per chart below). Keep away from trunk of plant. Water well before and after application.

POT DIAMETER	APPLICATION	WHEN TO APPLY
8" - 20cm	3.5g 1 Teaspoon	Apply in early spring (immediately after flowering), in summer and again in autumn. Water well after application.
10" - 25cm	7g 2 Teaspoons	
12" - 30cm	12g 1 Tablespoon	Water well after application.
16" - 40cm	25g 2 Tablespoons	
20" - 50cm	40g 1/4 Cup	

MULCHING

It is recommended to mulch your garden in spring and autumn with a high quality mulch, such as SEARLES® PINE BARK or SEARLES® CYPRESS MULCH. Mulching helps to reduce water evaporation, keeps soil cooler & promotes healthy plant growth.

HEALTH WARNING

COMPOSTS, POTTING MIXES AND OTHER ORGANIC GARDENING MATERIALS

This product is made from organic materials and may include composted peatbark, and contains living micro-organisms, including bacteria, fungi and protozoa. May also contain mineral and fertiliser additives.

RISK: Inhalation of dust and/or liquid mists may irritate, inflame or sensitise the nose, throat and lungs resulting in illnesses ranging from hayfever or asthma, to pneumonia (e.g. Legionnaire's disease) or pneumonitis-like diseases. Direct contact with this material or its dust and/or liquid mists (bioaerosols) may cause skin irritation (dermatitis), and skin or eye infection or irritation. People particularly at risk are the elderly, those suffering from asthma or allergies, and those whose immune defence systems are compromised. All people working with these and other landscaping and horticultural products should ensure that they are adequately protected from Tularia.

SAFETY

- Avoid contact with eyes and skin.
- Avoid breathing dust and/or liquid mist (bioaerosols).
- When using product, do not eat, drink or smoke.
- Avoid eating, ingesting or swallowing product.
- Wear suitable protective clothing and standard duty gloves (AS/NZS 2161.2).
- If exposed to dust and/or liquid mists, also wear dust resistant eye protection (AS/NZS 1336) and particulate respirator (AS/NZS 1715 and 1716).
- Wash thoroughly immediately after handling.
- Wash work clothes regularly.
- Clean up by wet sweeping or vacuuming.
- Store this product in a cool location.

DISPOSAL

Follow above safety precautions and collect in containers for disposal as trade waste in accordance with local authority guidelines.

FIRST AID

- Swallowed: Do not induce vomiting. Immediately rinse mouth with water. Give several glasses of water to drink. Seek medical attention if any abdominal symptoms.
- Eye: Hold eyes open and flush eyes thoroughly with plenty of water for 15 minutes. In all cases of eye contamination it is a sensible precaution to seek medical attention.
- Skin: Wash skin thoroughly with mild soap and water. Remove and wash contaminated clothing before reuse. If irritation occurs, seek medical advice. Remove to fresh air. Seek medical attention for persistent skin, eye or respiratory symptoms.
- Inhaled: Wash skin thoroughly with mild soap and water. Remove to fresh air. Seek medical attention for persistent skin, eye or respiratory symptoms.
