APVMA Approval No 65120/50205

HOW TO USE: DO NOT apply when soil is dry and plants are suffering from moisture stress. DO NOT apply in windy conditions or when temperatures are above 30 °C

Apply this ready-to-use product directly to tomato plants.

Pest	Diseases	How to Apply
Tomato grub (Heliothis caterpillar), potato moth (Tomato leaf miner), tomato mite and other mites	Early blight (target spot), late blight, septoria leaf spot	Dust seedlings approximately 7 days after transplanting and repeat at 7-10 day intervals. Apply uniformly to foliage including underside of leaves. Dust when the air is still, preferably in the evening or early morning. Apply more frequently during rainy weather. Avoid excessive application to seedling tomatoes.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.

DO NOT PICK TOMATOES FOR 3 DAYS AFTER DUSTING.

CAUTION:

Dangerous to bees. DO NOT apply if bees are foraging on flowering plants. DO NOT allow pets and children to enter treated areas. DO NOT allow chemical containers or product to get into drains, sewers, streams or ponds.

STORAGE AND DISPOSAL:

Store in the closed original container in a cool, dry place out of the reach of children and pets. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage. DO NOT recycle empty container.

SAFETY DIRECTIONS:

May irritate the eyes and skin. Avoid contact with eyes and skin. DO NOT inhale dust. Wash hands after use.

FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre.
Phone Australia 13 11 26

WARRANTY:

The use of this material being beyond the control of the manufacturer or distributor, no warranty as to its effects is given or implied.
